The problem is that many of the highways are flanked by stores and strip malls, making any road-widening project about as easy as putting another lane in the Lincoln Tunnel. They now use LED's as well and have far higher outputs and more advanced beam management. The Road to Light said he received complaints from residents who thought there was something wrong with the light -- though the letters and phone calls have subsided. LocationDDdecimaldegreesCityofsunlighthoursSend Email. Dynamos Dynamo powered lights are legal even though traditionally they have gone out when you stop modern dynamo systems have 'standlight' technology which means that the light stays on for a while after you have stopped - another German legal requirement.
