APPLE TREE Posted - Hazelnuts and Moorhens Eggs 1st May The different fruit trees in the orchard all come into flower at different times, which is fantastic for all of the pollinators as it gives them a prolonged source of pollen and nectar. The pen and her mate were near the nest busy shovelling vegetation out of the water and chucking it towards the nest, as the water level rose.

I usually try to carry out the annual count towards the end of March. They can't Well spotted Caroline. Dan thinks the intruder finally flew off. The name mor-hen has been recorded in English since the 13th century.

One of the most beautiful birds in the British Isles. Primarily this is to limit the impact of smell on the wider public, but also to minimise the loss of ammonia into the atmosphere - green house gasses.
