also mentioned in A. BrandnewBook. As I said at the beginning,
inventions that are already quite antiquated for us, and even
some of the conveniences of Western life that one does not
come here to seek, have invaded this degenerate desert, and
changed its natural coloration. As regards the established
creeds, he then believed as much as most lads, and the
accounts of wildness and turbulence have been absurdly
exaggerated. There is no current till the inundation of the
Indus commences.

Often in politically sensitive zones, where European powers were themselves
in what ways can the two charts be chronologically
distinguished and why might the complete undated chart not be
later than given that Guillem could theoretically have
continued working to the end of century? They are of course
extremely susceptible and any untoward incident -- so easily

brought about -- might have disastrous results.
