While the United States has been fighting ISIS and other terrorist entities in the Middle East and elsewhere in recent years, such warfare bears little relation to engaging a modern state determined to defend its sovereign territory with professional armed forces that have the will, if not OUT OF THE GULF the wherewithal, to counter major U. On 10 January a paper appearing in the Journal Nature stated Paul Crutzen 's calculations that the setting alight of the Kuwait oil wells would produce a " nuclear winter ", with a cloud of smoke covering half of the Northern Hemisphere after days had passed and OUT OF THE GULF the cloud, temperatures would be reduced by Celsius. The GCC as an organization could still survive the current period of regional upheaval, but even if it does it might well simply become an irrelevance.

This event was later called by the media "The Highway of Death. For the time being, however, Saudi exports appear safe. Paul Crutzen, from the Max Planck Institute for Chemistry in Mainz, has

produced some rough calculations which predict a cloud of soot covering half of the Northern Hemisphere within days.
