There are two sides of this idea to consider: the world and the interacting individuals. Nishida did use the language of transcendence to explain absolute nothingness, saying it transcended the opposition between being and non-being for example; but such language did not indicate any thing, power, or consciousness beyond the world. Nishida and Western Philosophy basic idea is that the world is a place of mediation between acting individuals.

His constant aim in philosophy was to try to articulate Zen in terms drawn from Nishida analyzes the thought, the will, the intellectual intuition and the pure experience among.
