The text includes expository content grounded in contemporary research, as I think this textbook is up to date and students will still get use out of the book in the future. This is something I will look at using in the future with different classes that I teach, and recommend to peers in the teaching field. When everything seems important, how do you determine what to do first?

Ask students to bring in their syllabi and calendars. Materials are clear and there a way to download this book or copy? Want to Read saving....
